SUMMARY

Passionate about building modern web applications using the MERN stack, and excited to apply my skills to real-world projects. Eager to contribute to a dynamic organization while continuously learning and growing as a full-stack developer. I enjoy turning ideas into responsive, user-friendly experiences and believe in writing clean, scalable code that makes a difference.

PROFESSIONAL EXPERIENCE

MERN Stack (Intern)

Techpile Technology Pvt. Ltd. Lucknow | 2025 (2 months)

- Developed and optimized full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Implemented REST APIs and worked with JWT Authentication for secure login systems.
- Collaborated with senior developers using Git and GitHub for version control.
- Contributed to Agile sprints and daily standups, ensuring timely project delivery.

PROJECTS

Quirex-Real Estate Website

- Full-stack MERN application with a Node.js/Express backend (REST APIs, MongoDB integration, file uploads) and a React frontend (Vite, modular components, asset management).
- Backend handles authentication, admin/user routes, and data modeling; frontend provides a modern UI with routing and static asset support.

LearningEdge - ELearning platform for Engineering students

- Full-stack MERN application for online course management, featuring a Node.js/Express backend with REST APIs, MongoDB integration, Razorpay payments, and Cloudinary file uploads.
- Backend manages authentication, user/admin/course/payment routes, and data modeling; React + Vite frontend offers a modular, responsive UI with Redux state management and Tailwind CSS styling.
